

Shape a Song

This is an activity for one or more people.

Goal: Create your own shape song singalong.

What to do:

- Choose a tune for your song. You may decide to use the tune of your favorite song or create an original tune.
- Create lyrics to go along with your tune.
 - Incorporate the names of different shapes into your lyrics. Use words that describe the attributes that make each shape unique.
- Sing your lyrics to your selected tune.
- Example: To the tune of “The Wheels on the Bus” you may sing,

*Triangles, triangles have three sides
Have three sides, have three sides
Triangles, triangles have three sides
What shape should we sing about next?*

To think about:

- Use your body to create the shape(s) you are singing about. Add other dance moves to your performance.
- Perform your song for a family member or friend. Teach them your song and have a singalong.
- Don't feel like singing aloud? Write it out! Turn your song into a poem or a story. Draw pictures to go along with the words. Afterwards, share your poem or story with a family member or friend.
