

# Bug Patterns

This is a game for two people.

**Goal:** Create AB, ABB, ABC, and ABCD Patterns

**You will need:**

- Pattern Spinner
- Bug Cards
- A Partner

**What to do:**

- Spread all of the cards bug-side up so all cards can be seen.
- Players alternate turns.
- Begin by spinning the pattern spinner. The spinner tells what kind of pattern the player needs to make with the bug cards.
- Make the pattern that is shown on the spinner.
- Tell your partner why the pattern you made matches the pattern described on the pattern spinner. Return the bug cards to the pile when your turn is over. Alternate turns. Play four rounds.
- To end the game, both people playing the game create a pattern of their choosing with the bug cards. Each player shows the pattern to the other player and asks them to describe the pattern.
