

Hermit Crab and Friends

A game for two or more players.

Goal: Guess how the hermit crab cards are sorted.

You will need: Hermit Crab character cards.

What to do: The oldest player goes first and sorts the cards into groups in which everything has something in common. For example, groups of animals that swim, things that don't move, animals with spots, or animals that are blue. Not all of the cards need to be used when making groups.

The other player or players guess how the cards were sorted.

The first player tells the other player or players if the guesses were correct. If not, the player tells how the cards were sorted.

Players alternate turns, each taking a turn with sorting and guessing.
