

Market Run

This is a game for two to four people.

Goal:

Collect as many food cards as you can before the market closes.

You will need:

- Market Run game board
- Food cards
- One dice

What to do:

1. Roll the dice—whichever rolls the highest number starts.
2. Roll a dice to see how many spaces you will move. Follow the directions on the squares.
3. If you land on a space with a food picture, collect a food card.
4. The first person to reach the final red square closes the market. The person who closes the market receives an extra food card.
5. After the market closes, each player counts their food cards. Whoever has the most food cards wins. The person who closes the market by reaching the final red square might not be the winner!
