

The Napping Stack

This is a game for 2 players.

Goal: Try to guess the order of the nappers.

You will need:

- two sets of character cards, one for each player
- a divider
- a bed

How to play:

- Each player takes a set of character cards and a bed.
- Put up a divider so each player cannot see their partner's stack.
- The first player makes a secret stack with their character cards. The second player tries to recreate the first player's stack by asking questions without naming the character, for example "Is the napper on the bottom a human?" or "Does the napper on top have fur?"
- The second player will ask questions until they think they have recreated their partner's stack.
- Compare stacks and see if they are the identical!
- Alternate turns.
